I will lead the fight to stop:

- Socialized Medicine (Obamacare)
- Illegal Immigration and Any Amnesty
- Increased Taxes and Class Warfare
- Wasteful Government Spending

New direction is needed

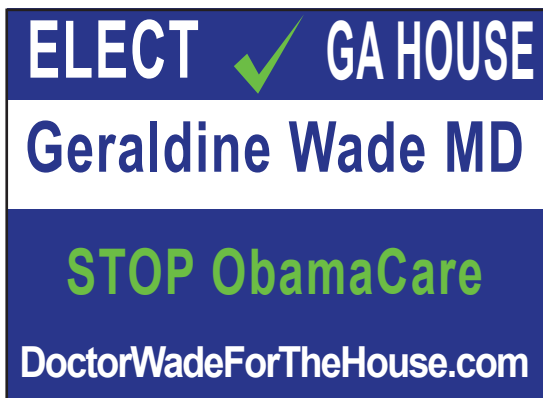

Job creation is JOB #1!

The time is now to be involved in our government and become proactive in defending our Liberty.

Entrenched career politicians must be replaced.

State Government is the last stand against the destructive forces coming out of Washington.

*The time to engage is NOW
